

## Project Partners

The LIFEEx Project's mission is to enhance workforce skills in the "Personal, Social, and Learning to Learn" competence through a groundbreaking virtual reality training programme designed to deliver Immersive Learning Experiences (ILx).

These experiences are carefully crafted to cultivate competencies that enable individuals to unlock their dynamic potential as reflective lifelong learners (in line with the EU LifeComp framework).

## Our Objectives

- Empower individuals by elevating their “*Personal, Social, and Learning to Learn*” competencies, enriching their lives, and equipping them for success in the European workforce.
- Strengthen VET providers’ internal capacity to meet the evolving needs of trainees and the labour market.
- Advance soft skills training by pioneering innovative VR solutions that offer a richer and more effective learning experience.
- Support teachers and trainers to seamlessly integrate VR technology into their training programmes, enhancing the learning journey for their students, learners, and trainees.

## Learning Resources available:

1. LifeComp ILx Competence Matrix
2. LifeComp Immersive Learning Experiences (ILx) training
3. Toolkit of learning activities to complement the VR experiences
4. eTools for evaluation
5. Educators Guide to VR training

## Join us on this exciting journey of transformation and empowerment with LIFEx.

Together, we will shape a future where individuals thrive, businesses flourish, and European workplaces are more resilient and dynamic than ever before.
